

Angela Babuk – Fellow

Angela, a critical care physician focusing on services for under-resourced communities, migrated from Afghanistan and Russia to BC. She earned a biopsychology degree from SFU and an MD from UBC, where she also trained in General Internal Medicine. Angela furthered her education with Critical Care Medicine at University of Calgary, Echocardiography at UBC, and Cardiothoracic Critical Care in Cambridge before practicing in BC.

Angela works at Nanaimo Regional General Hospital and is pursuing a Master of Public Health at Johns Hopkins, focusing on Quality Improvement and Patient Safety. She aims to enhance healthcare quality and access through system-level changes driven by solid data. Angela's goal is to develop a system for identifying and bridging service gaps for critically ill patients in underserved communities, ultimately improving care equity.

Sepsis & The ED

Join us for an engaging session that bridges theory with practice in the fight against sepsis.

This webinar is a must-attend for ED staff seeking to elevate their understanding and management of sepsis through:

- **Real-World Cases:** Listen to actual sepsis scenarios that demonstrate both challenges and victories in patient care.
- **What's New in Care:** Stay ahead of the curve with the latest in sepsis treatment. Angela will share how we can transform patient outcomes.
- **What is Coming:** Get new updates to the Sepsis Care Toolkit. Discover how these enhancements can empower you and your team with more effective strategies and resources and tell us what you need!
