# CareConnect Enrolment: High-Level Overview

This guide covers STEP 2 of the CareConnect registration process, which is to **Registering your New Worksite as a Site Administrator**.

- If you have not already set up the BC Services Card app, refer to: **STEP 1: BC Services Card App Set Up & Identity Validation** in the [How To Validate your Identity using the BC Services Card App Guide](#).
- If your worksite is already registered and you have received a worksite ID, please follow the instructions on **Joining an Existing Worksite** in your role-specific guide.

# 1: Key Definitions & Access Rules

CareConnect

# 1A. Worksite Definition

- A Worksite is defined as the place of service in which the user will be supporting or directly delivering patient care.
- All CareConnect users must be associated with a clinical worksite
  - This includes private practice clinics, working remotely from a home office or delivering/coordinating mobile care from a community-based worksite.
- Practitioners who deliver care from multiple places of service must register to access CareConnect from each unique worksite
  - Users who have health authority access **MUST ALSO** register to access CareConnect from a community-based worksite separately.
  - Your access may be audited based on the worksite that you access patient records from.

# 1B. Group / Site Administrator Definition

## Group / Site Administrator

- This is the person who registers the worksite, typically the lead physician or MOA
- Multiple people can be a Group / Site Administrator; this role can be re-designated
- Responsible for worksite and/or user administration (assign/revoke access; invite users to join worksite via email; approve requests to join a worksite)
- Coordinates the completion of Worksite Privacy & Security declaration (this must be completed by an individual with signing authority)

1. Site Administrator begins enrolment by validating identity using BC Services Card

2. Logs into the my.CareConnect Enrolment Portal and registers the worksite

3. Group / Site Administrators can invite team members to join a worksite via email (sent via the my.CareConnect enrolment portal) or by providing the Worksite ID

# 1C. Worksite Types Eligible for CareConnect Access

CareConnect is currently available to the following community-based worksites:

- Community-Based Private Practice
- First Nations Health Authority Facility
- Community Pharmacy
- Private Long Term Care Facilities

The PHSA CareConnect team is continuously working with the Ministry of Health to extend eligibility to more community-based worksites across the province.

If you don't see your worksite on the list above, please email [private.careconnect@phsa.ca](mailto:private.careconnect@phsa.ca) to see if your site qualifies for access.

**NOTE:** Other worksite location types may begin the registration process BUT will not be eligible for individual CareConnect user access until a Designation Order has been approved for their profession.

### Hello PHSAPOC Dalia EIGHTEEN,

You just registered your worksite for access to CareConnect.

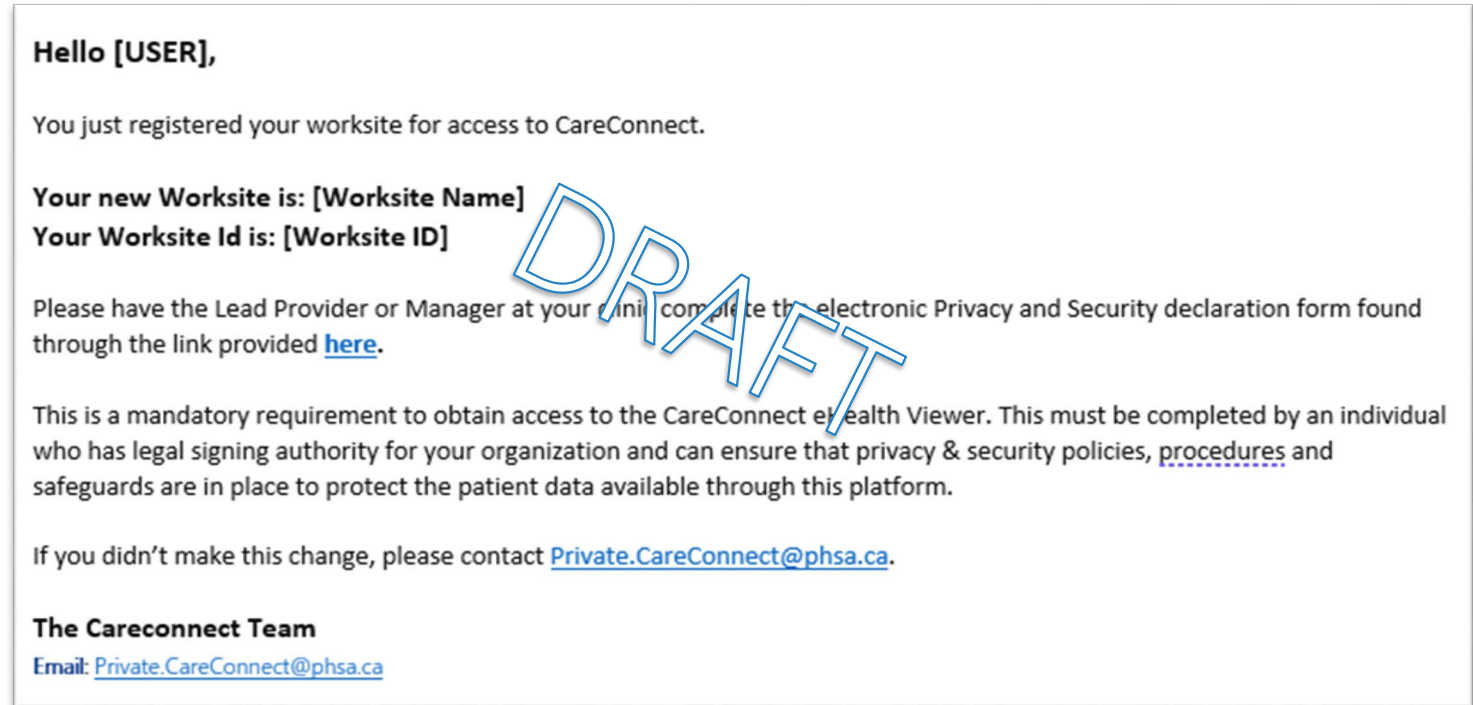

**Your new Worksite is: Kingsgate Mall Clinic**

**Your Worksite Id is: K4T6CLP**

If you didn't make this change, please contact [CareConnect@phsa.ca](mailto:CareConnect@phsa.ca)

# 2J. Complete Privacy & Security Declaration Form Requirement

- After the worksite access request has been submitted, you will receive an email from the CareConnect team with a link to an electronic [Worksite Privacy & Security Declaration](#).
- This form must be completed by an individual with signing authority for your organization (i.e. Clinical Lead or Office Manager).
- The CareConnect Team will receive a notification once this declaration has been completed. Once your worksite has been approved, you may proceed with user enrolment requirements.

**NOTE:** You may begin inviting team members to join your worksite (see **Section 3**) prior to the completion of this form, but users will not be authorized to access CareConnect until this step is complete.

# CareConnect Enrolment Steps: Next Steps

Once your worksite is approved, you may apply for CareConnect by referring to the role-specific guide below:

- If you are a Physician or Nurse Practitioner, see [How to Apply for CareConnect as an Authorizer](#)
- If you are an MOA or Nurse (LPN), see [How to Apply for CareConnect as an On-Behalf-Of User](#)
- If you are a Pharmacist, RN or an unsupervised nurse (FNHA/LTC), [How to Apply CareConnect As An Independent User](#)

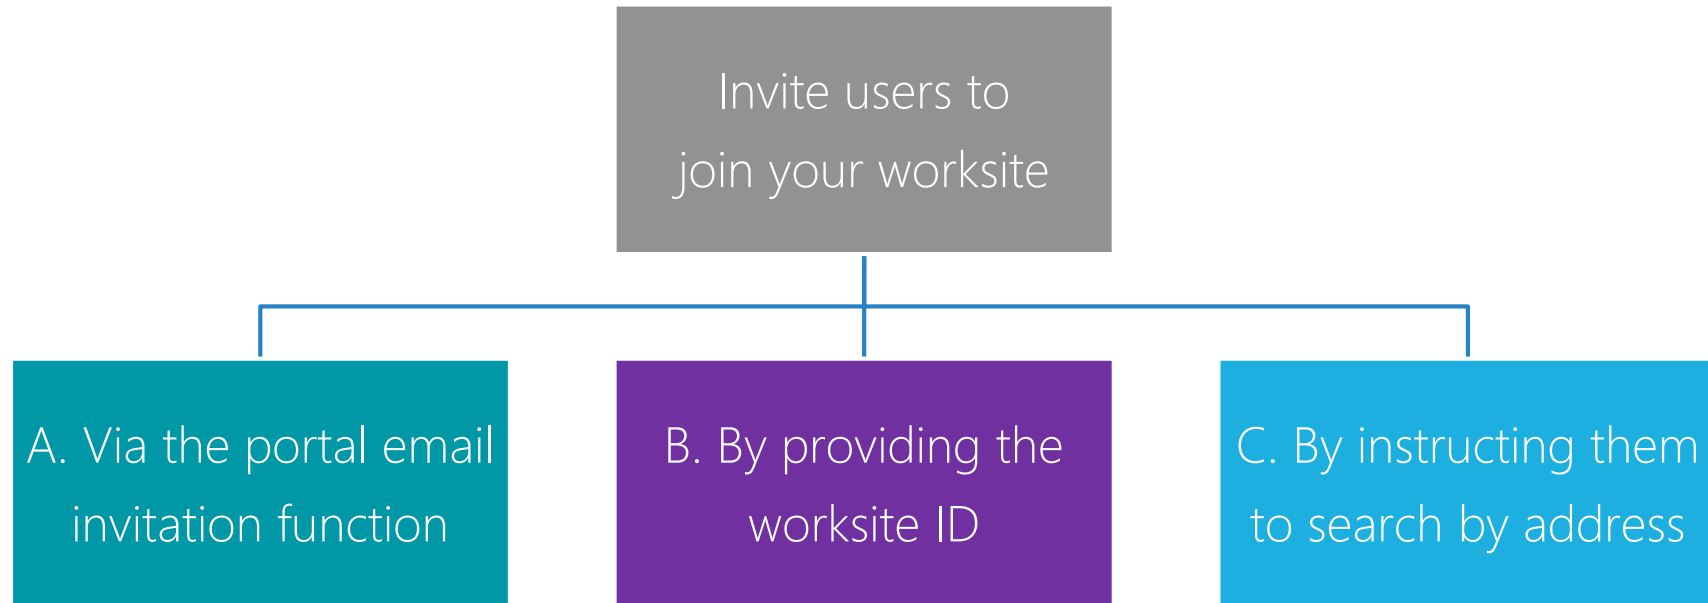

## 3: Invite Users to Join Your Worksite

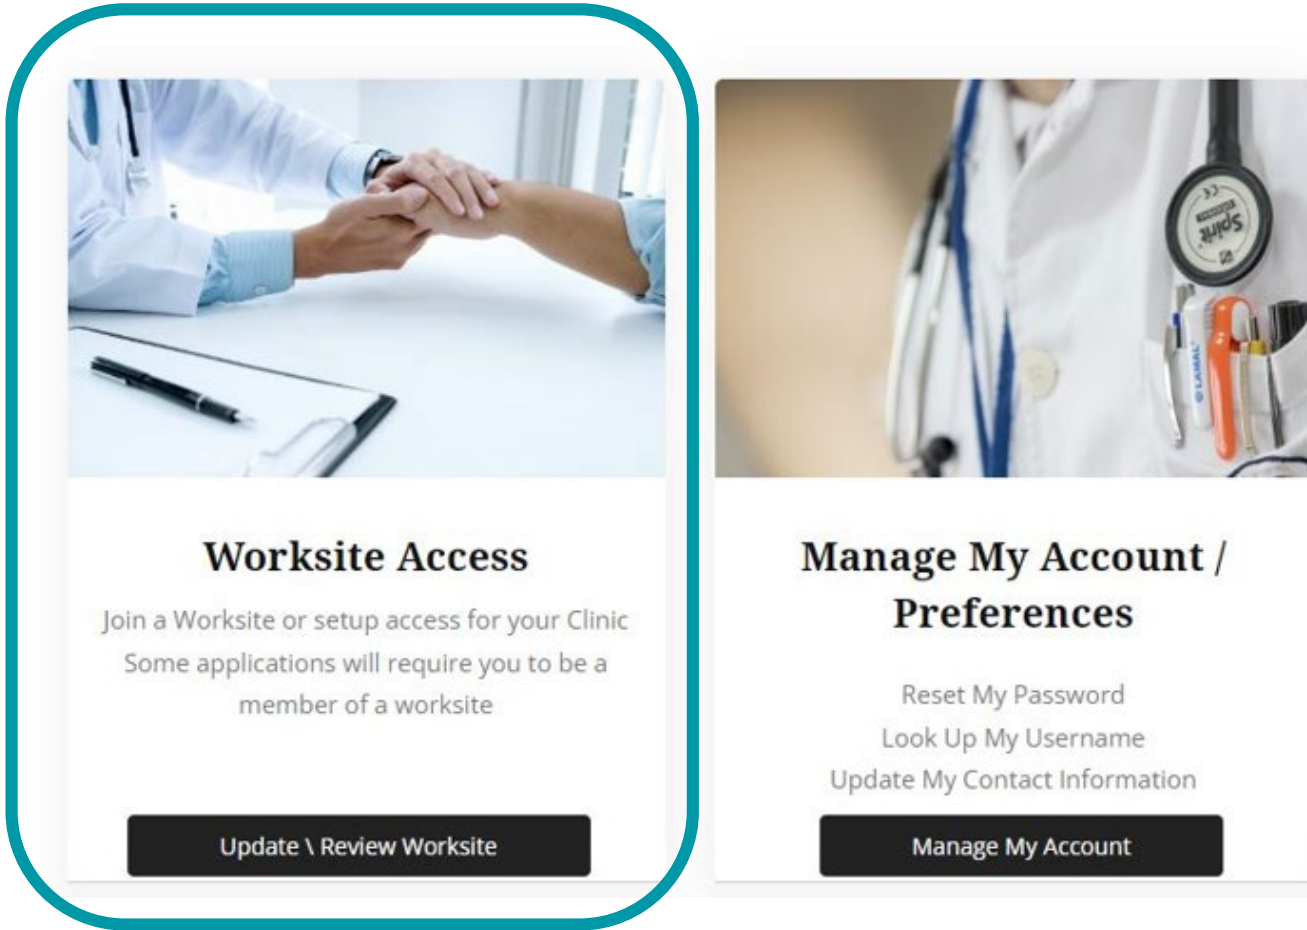

# 3A. Inviting Users to Join Your Worksite

There are several ways you can invite users to join your worksite

# 3B. OPTION A: Invite Users to Join via the Worksite Access Module

After logging in to the my.CareConnect Enrolment portal, select **Update / Review Worksite** under the 'Worksite Access' module to begin the registration process.

The screenshot displays two menu items side-by-side. The left item, 'Worksite Access', is highlighted with a teal rounded rectangle. It features a photo of two people shaking hands over a desk, the title 'Worksite Access', a sub-header 'Join a Worksite or setup access for your Clinic', a description 'Some applications will require you to be a member of a worksite', and a black button labeled 'Update \ Review Worksite'. The right item, 'Manage My Account / Preferences', features a photo of a doctor's chest with a stethoscope and a button labeled 'Manage My Account'. Below the menu items are decorative icons: a person, a water drop, and a network diagram.
